BHASHA EVAM POSHAN

BHASHA evam POSHAN is our new initiative with SPANDAN and MADHYANCHAL Forum, this campaign is being conducted with BAIGA community for empowering community towards their language (Dialect), tradition and culture with focusing their food diversity. Due to various reason the BAIGA in situation to lost their many knowledge. We are trying to conserve.

Development initiatives . . .

We (CDC) are happy to present progress report for the year 2019. The organization has been successfully completed one more year to work with vulnerable section of the society. Our different projects and program strengthening people for improving their own life. As our livelihood project reaches for more than 450 tribal families directly and another 500 families indirectly. The livelihood around tiger reserve or protected forest area is a crucial issue for tribal communities, the project is being successful on integration of conservation and livelihood in this area. It is more important to work small initiatives to save our world in changing climate.

Health is another important issue where we are intensively involved with ensuring good health services and community is able to access the health services, As organization is working on malaria, malnutrition, immunization etc. The organization's project on

health also empowering rural people for access of health services and awareness on various health issues i.e. sanitation, use of toilets, safe drinking water and how community treat malnutrition at the community level.

All these program which organization carrying out, this could not be impactful without community participation and ownership of the community. This is our strength, where we involve every person of the community, our success is this where we actively involve community from planning to implement the program, There is many stories of success. As CDC has completed five successful year of works with elected women representatives of Baihar block of Balaghat district. These 276 elected women representatives of panchayat have effectively worked on various social

issues and development of their own village or panchayat. These women representatives continue working on very sensitive issues i.e. women safety, children's safety, making of children register at the panchayat to address the problem of missing and trafficking in the area. CDC has successfully implemented program with community participation.

Memorandum to Local MLA by Women

New initiatives - MTB-MLE & URJA help Desk

CDC was involved on effectively implement of ECCE policy in AWC, this year new partnership with NEG-Fire has started to work on Mother Tongue Based- Multilingual Education in two Sankul of Baihar Block of Balaghat district. This program in being implementing in 80 Govt. schools and 76 Anganwadi centers. With this another

initiative with MP Police department, CDC is supporting department for community out reach and mobilization for effective implementation of URJA HELP DESK, this is initiative of MP Police department, which gives opportunity to women, who are in problem, women can access the services of URJA Help Desk to resolve the problem, CDC

is working in Waraseoni, Lalburra, Khairlanji, Kirnapur, Baihar and Katangi block and supporting to URJA HELP DESK. Under this program SHAKTI Samiti has been formed in each block, which will help women and stop crime against women.

Project: Sustainable Livelihood [Supported by PHF]

The project sustainable livelihood around protected forest area has been completed five years of implementation with 300+ tribal families, third and final phase of the project has been started from April 2019.

The project has become very successful project of the organization in ensuring sustainable livelihood of tribal (Gond and Baiga) community. There are many stories of the tribal families who have been ensured their family income through various project activities i.e. Horticulture crop, paddy cultivation,

Through the project we have collected more than 40 varieties of traditional paddy seeds and intensifying these seeds to own and control. In 2019 the farmers have intensify 4 types of Paddy seed. JEERAPHUL one of the local variety of paddy seed, this seed has been intensified nicely and now this seed is available with more than 100

farmers, they do not need to purchase from anywhere. Project has promoted farmers to adopt SRI technique for paddy cultivation. Through this technique our families now nicely learnt the process of SRI and taking good production of rice. The project beneficiaries becoming expert on using of SRI technique. Through the various and continue trainings more than 200 farmers has been train on SRI techniques, there is 50% women who has been train. After making to efforts in last five years this has been established with in the community. Now our project beneficiaries sharing their experiences to other famers,

their neighbor and also relatives from different village. They proudly sharing their experiences, i.e. Budhram says that he has been increase paddy cultivation area using SRI techniques from 1 kg. paddy to 50 kg paddy seeds. And he proudly sharing that his production has been increased, It is also important to know, the these production are organic. No chemical or harmful pesticides using in their crop. The farmers have learnt about organic compost manure, which they prepare in own house and using in their cultivation. Which they understand that they are playing role to keep their land fertile and their part for keeping the world sustainable.

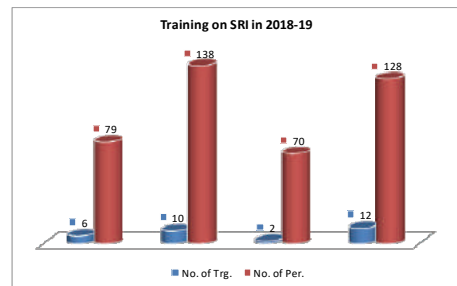

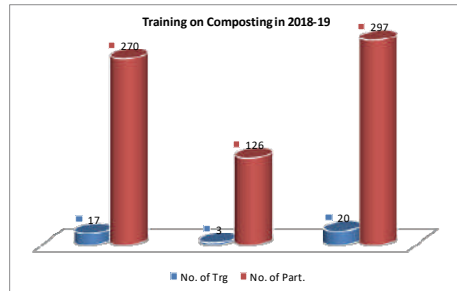

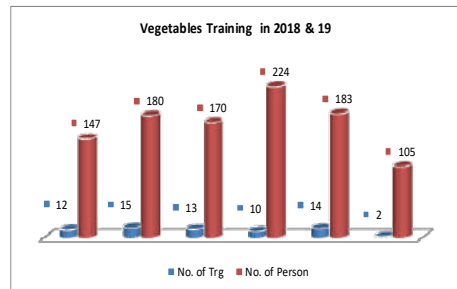

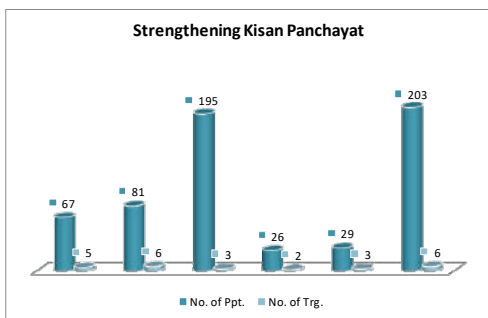

SRI Field DASRU SINGH Village JAITPURI

Various skill and knowledge building in project

In the project, we focused on skill and knowledge building and behavior change of the community. It is important to know the project beneficiaries not very nicely literate and most of are illiterate. We used adult learning tools in all training and capacity building initiatives. Each training has been conducted in twice and thrice and as per need and after assessment of community knowledge.

Each of the beneficiary has been tracked and we made continue follow up for learning assessment and organize the program for community.

"Skill & Knowledge building is important part of the project"

Project : Livelihood [Supported by PHF]

In the project, we focused to invite experts of horticulture and agriculture, Each project beneficiary has been visited by subject expert during his crop cultivation. Through the regular follow up and support to targeted families, now they have become expert on cultivation of Turmeric and Potato and also ginger. All these crop has been established among the families and we do expect that they will continue with these crop, because they are getting more cash income through cultivation of ginger, turmeric and potato cultivation. It has been seen that there are more than 200 farmers family comes under in category "A" and rest of the families are in category "B". This category has been developed by project staffs with some indicators to assess the change in the life of targeted community.

Socio change among targeted families : POSHAN BAADI

In last three years one important initiative has been introduced to the project beneficiaries. Malnutrition is one big socio health problem in tribal community, due to changing in food pattern, unavailability of various vegetables, food grain and food supplement through forest. It has been observed and nicely

POSHAN BAADI is very useful initiative for families for fighting with malnutrition.

understand the cause of malnutrition among tribal community. After discussion at various level this program has been planned and implemented with community. The POSHAN BAADI has been introduced with specific design and knowledge and how this could be useful for family. Poshan Badi has been started in circle design and

with specific variety of vegetables and time table for sowing also fixed, which is in alternate days, to get the fresh vegetables in all the days. This has been discussed widely with community to use vegetable at home in priority and when the production is enough than they can market the vegetable products. We primarily focus to house with pregnant and lactating women, children with malnutrition. We have very good example of good POSHAN BAADI.

Convergence with Govt. scheme

In the year 2019 the project has mobilize more than 2cr from different Govt. development schemes for project beneficiaries, Through the MNREGA many small pond, water storage tank, open well has been constructed. 5 solar pump has been mobilized for people of Baiga community. Kisan Panchayat is now becoming more strengthen to mobilize development program and schemes from different departments. We have train youths to support their families for tapping of different program. This has

been observed that there is more govt. schemes now online and we train community how to access these program.

Poshan Baadi Design

Project : EMBED [Supported by FHI]

Elimination of Mosquito Borne Endemic Disease (EMBED), this project is being implemented in Baihar, Birsa and Paraswada block of Balaghat district. The project focused on malaria prone area of the block. Villages were identified where there was malaria found in the previous year. This is a collaborative program of FHI, Govt. of India / MP. The major project activities are as follows ;

1. Gram Choupal
2. IEC activities in community
3. Support in LLIN distribution
4. Support for IRS
5. Capacity building of ASHA
6. Coordination among village institutions for malaria free village.

Innovation in Project : IEC through Snake & Ladder

CDC always innovates new tools and techniques and interactive material for IEC in rural tribal areas. In this project, we have developed a game of snake and ladder, which is a group game that is very interactive and informa-

tive. This tool is being used in communities, schools, hostels, to provide information and knowledge on malaria, its causes, and how to control malaria and make the village malaria free.

Project : (SWEEP) Strengthening Women Empowerment in Electoral Process [Supported by THP]

CDC is completing of five year to work with The Hunger Project, The journey with THP and EWR (Elected Women Representatives of Panchayat) is really encouraging. In this five year cycle the federation of EWR's has been empowered nicely. The women feels strong and with full of confidence. 5 years ago when the project was started there was problem with communicate with EWR. They were hesitating to share their views, thoughts and feelings but now there are many women leaders emerged in federation who can lead in their own panchayat and community. This year the process again starts, to establish them as leader and to promote more potential leaders for next coming Panchayat election process. These women have done very effective works in their panchayat and in different areas of social development, they have playing very effective role to ensure social security and schemes

and program implementation in their own panchayat and village, they are focusing to sit together and prepare of plan and they understand importance of gram sabha. Most important being a Panch they have initiated more and more work in their ward. They have

lets, ensured wages payment of MNREGA, effective implementation of Govt. schemes i.e. PM AWAS, CC Roads, AWC Building, Ensured proper operation of PDS shops etc. They feel strong now.

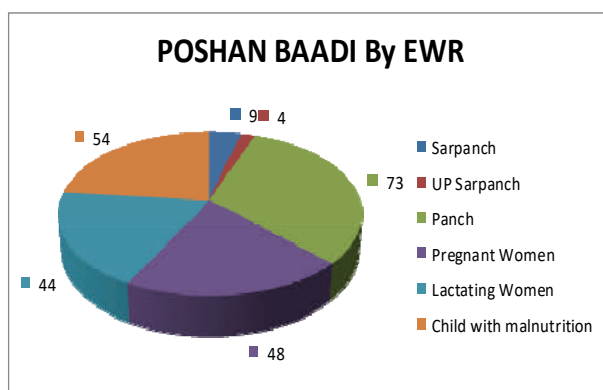

Potential Leader Workshop

constructed to-

EWR's initiatives to work on Malnutrition through POSHAN BAADI

EWR's understand about malnutrition causes and this year they have promoted families for developing POSHAN BAADI, who have malnourished child or pregnant or lactating women. 232 families were involved to grow leafy vegetables and consumption at home through Poshan Baadi, The EWR mobilize seeds from Agriculture department and also collected and distributed local seeds also. Poshan Baadi initiated by 9 Sarpanch, 4 Up Sarpanch and 73 Panch at their own home and after that they have promoted to families of pregnant women (48 families) Lactating mother (44 families) and families who have malnourished child (54 families)

Project : SWEEP in Bichhiya (Mandla) [Supported by THP]

CDC has got an opportunity to scale up program in Bichhiya Block of Mandla district, The Hunger Project has start support to this SWEEP Campaign in Bichhiya Block, This program has been started in the month of May 2019 with very specific activities. In this project we are targeting 30 Panchayat's. Baseline and data collection has been started in first two years and after completion of panchayat profiling, Panchayat level activities has been initiated. During this period in this block also workshop for potential women leaders also organize, SWEEP activities, rally, information stall also organized in Haat Baazar for making people aware on electoral process of the Panchayat. Slogan writing and different awareness activities conducted. It has been observed that there is very much interest among women for participating in Panchayat election process. Through this program they become aware and thinking about own

candidature with out any family pressure or promotion. This will be important to see how many women will come forward and play effective role in all election process of Panchayat.

Project: CHILDLINE (1098)

[Supported by CIF / GOI]

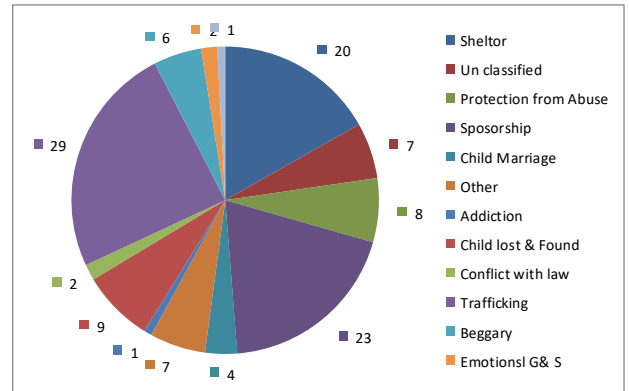

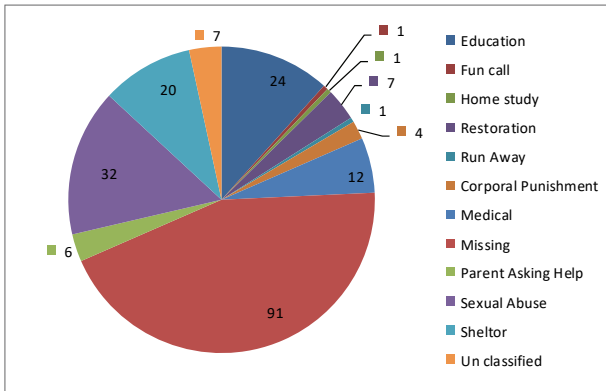

CHILDLINE (1098) is now becoming very known toll free number for children's. Awareness increasing on this number this has been proven. Every month the CHILDLINE Balaghat handling around 30 to 35 cases. We have reaching different pockets of the district not only city. Balaghat has 10 blocks and we are conducting outreach activities in all 10 block. CHILDLINE Balaghat is now visible and people knowing the role of Childline. With the good co-operation of district administration and allied system, we are provided various services to children's who are in need. Childline Balaghat has been shifted very equipped office and CDC provides good facilities to the childline team, different kind of IEC activities has been carried out by the Childline

team, In the last one years we have reached around 34 thousand of community members through our activities i.e. Open House, Childline Se Dosti Abhiyan, Activities in school, Hostel, Police station and direct reach to home to home visits. Balaghat is one of the source district for child trafficking, we are continue trying to aware people for children's safety. In the tribal block i.e. Baihar, Birsa we have initiated with the participation of community

to prepare CHILD Register at the Panchayat level, This register will be maintain by Panchayat to keep the details about all the children 0-18 age of the village. Because there is no system at the village level where there such kind of information available. We are targeting 5 Panchayat at this stage to prepare CHILD Register, this register will be updated by community and deep involvement of PRI representatives to keep and update the data. This register contains details of every child and keeping the information about what and

Activity with College Students

Utkarsh Vidhyalaya

School run by CDC in small village called GARHI since last 2004. As the school is not profit making status. We provides different opportunity to students for learning and express themselves. This year there was 10 students in class 10th and all have passed with good percentage, five of students obtained more than 80%, Which shows the hard work of school staffs.

The UTKARSH Vidhyalaya serves for local children's, there is majority of ST students, who comes from different villages, and their local dialect is Gondi, We decided to teach the students in their own mother tongue for KG 1 to class 2nd, School has started to work on developing TLM in local language than state language Hindi and finally we go to English. This year Annual function also organize in the month of Feb.2019, This event called BAAL MAHOTSAVA, Also one day Picnic also organize with CHILDLINE Team in Balaghat, There was lots of

extra curriculum activities during the year.

CDC has committed to provide good environment and opportunity to students. We are focusing on various skills of the students i.e. communication, leadership etc. through various activities in the school.

The school has got a project from India Foundation of Art to work on Gondi language through involving community and students. This program will be implement by the school with around 10 village and document, develop the learning material on local dialects. The management

BAAL MAHOTSAVA 2019

is very interested to provide more and more skill and trainings to teachers, every month there is sessions on various issues for teachers. We have developed teachers stilled on different area. Now our teachers are more skilled, With very less resources we are trying to provide very good opportunity and learning environment to our students. The school

is committed to provide value based education to all our students.

Students under RTE

Utkarsh Vidhyalaya is committed to implement RTE in school, we do not disclose students identity who enrolled under RTE

Project: Mor Gaon Ke Eskul [Supported by NEG- FIRE]

Primary Education is one of the more prioritize and core issue of the organization. There is lots of problem in this sector, everyone is aware about education in tribal area, Where there school exist but lots of concerns about good education, learning capacities and many more, one another issue is retention of children in school. Dropout and some more issues in education at primary level. It has been experienced that, in past few years Govt. has also concern about all these issues and trying to work. In tribal areas schools exists but there is no other facilities for teachers i.e. no housing facility available for teacher, poor communication or transportation facilities etc.

All of these there is one major hurdle for children's of tribal community, which is language. Everyone using mother tongue at home and community level. The child coming to the

school with his communication language, in our context the mother tongue is GONDI, this language is very simple and many of the words coming from different other dialects i.e. Chhattisgarhi, Khadi boli, and sometime there is English word also. When a child of 6 year old, come to school, teacher and other's using state language HINDI, than the struggle starts with children. Language is one big hurdle for a child to learn and understand proper. The child could not imagine and communicate

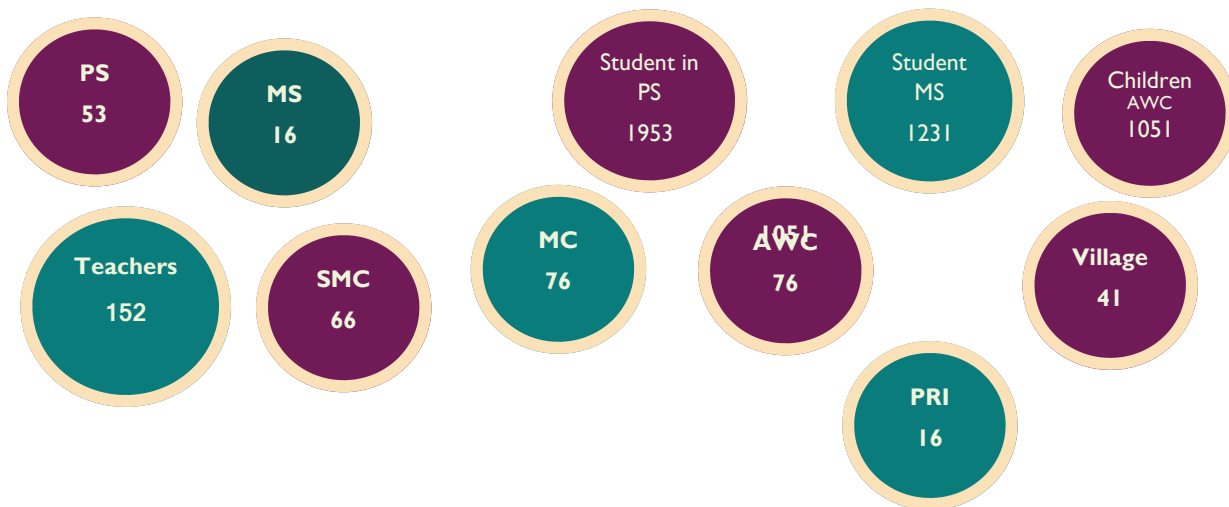

in Hindi because he do not knowing the most of the word, therefore the child is in fearing, shying and hesitates to communicate. The project MOR GAON KE ESKUL will be work on MTB-MLE Mother Tongue Based Multilingual Education. In partnership with NEG-FIRE this project will works with Gond community and NEG has already developed

few TLM and other learning material which will be used in the project and focus on Anganwadi and 1st and 2nd class students. Most important, mobilizing local community for primary education, CDC will works with SMC, MC, VEC and community leaders.

Project Mor Gaon Ke Eskul

Project Reach

SMC Training

SMC (School Management Committee) has been formed as per Govt. rules in project villages with the support of teachers. After formation of SMC, 3 round training has been conducted by the organization on rules, role and responsibilities and most important, during the training, each SMC has develop an action plan for their school, and what they have vision to develop the school. This training has been facilitated in participatory ways.

SMC Members after training

Youth participation in Democracy (Supported by GGF)

India is very young country in terms of population, innovation and many more, there is very important to involve youths for empower democracy of our country in positive manner. The project implement in Bhopal with more than 200 college going students. These students were involved on various activities, i.e. SWEEP Campaign during general election with the slogan of Achche ko Chuno, Sachche ko Chuno. These youth were mobilized more youths to use their voting rights and also various issues like child rights. Through the Nukkad Natak and street plays and message given on child rights and protection of children's. A strong network of youth has been created. Their capacity has been built in such a manner that they have become conscious of their rights and duties. A space like youngshala has

been created where youth come not just to spend time but to dialogue on numerous issues. A library has also been set up at youngshala to help youth in a number of ways right from preparing for competitive examinations to understanding social development.

**COMMUNITY
DEVELOPMENT CENTRE**

**Rights With
Dignity**

Community Development Centre is dedicated to Children and we focus on overall development of a CHILD, Each of the program of CDC for the Children. We works directly or indirectly for children. As our livelihood project strengthen the family income, when the family income increase the direct benefits goes to children, They are getting good cloths, good food, good education and good environment for own development. Our other projects i.e. women leadership, this project also supports children's development, If an EWR works on construction of toilets the children's getting the facilities, Women are very much concerned about child safely not only girls but also boys. They are working on safe panchayat, making of child register.

CDC invites individual donor, volunteer to support our small initiatives for making a world for children. The next decade is dedicated to Children and organization will focus on children and adolescents for their overall development, without any kind of discrimination. We are very happy to say that every year we are reaching more than 50 thousand's of children through our various program and project.
